

POTPOURRI...

By WILLIAM J. O'BRIEN

SICILY

A resurgence of neo-Fascism in Sicily is causing grave concern to the so-called Right and Christian Democrats. So, believe it or not, they are going to make an alliance with the Communists! Better the Communists in power than those dirty Fascists and Nazis!

SOUTH AFRICA

According to the South African Observer, the recent visit of President Kamuzu Banda of Malawi to the Republic of South Africa with all its pomp and pageantry and the unprecedented multiracial wining and dining, spells doom for this little republic. The Banda visit has ushered in a dangerous multiracial situation in this country. Even nationalists are admitting South Africa will never be the same again. The whole thing represents nothing less than the crumbling of the apartheid wall.

GREECE

The Greek patriots have cleaned out the Communists, warred on the pornography and fought masonry. The people have regained their self-respect. Would to God we had such leadership in America!

CUBA

The U.S. recently warned Cuba that it is prepared to "take all measures" to protect commercial vessels on the high seas from attack by Cuban gunboats. The Pentagon also alerted Air Force and Navy units. More talk! Oh for a Teddy Roosevelt that used action not words!

THE UKRAINE

All Ukrainian Christians (especially Canadians) not Catholics alone, are incensed over Pope Paul's outright refusal to issue a passport for Cardinal Slipyi, dean of the Ukrainian hierarchy, to attend the Ukrainian-rite Catholic Congress in Toronto last July. The 79-year-old Cardinal, who spent 18 years in a Soviet slave labor camp, is a living symbol of anti-Communism, and loyalty to Rome. Pope Paul rewarded him by appointing two new Ukrainian bishops in the United States without even consulting the cardinal!

HERE AND THERE

SOUTH BRONX, N.Y. — For those still harboring any reservations about the extent of culture distortion in the U.S. and the near total degradation into which we have sunk, we sadly recommend a long, sober look at the situation in South Bronx, N.Y. Referred to as "one of the sickest neighborhoods in the world," this is a hell hole of grinding poverty and violence (2,300 muggings first nine months of 1971) so terrifying, its inhabitants literally fear to venture forth in broad daylight without an armed guard! One Catholic priest's only solution: "Bomb the place out and start over."

NEW YORK STATE — How's the following for laughs (if it weren't so utterly tragic)? With New York at a fiscal dead end, "Gov. Nelson A. Rockefeller" (pardon us, Rockefeller) is asking foundations, community groups and individuals to pitch in with voluntary work to help overcome cutbacks in state services. After Mr. Average New Yorker has been deliberately robbed blind, taxed blind and bankrupted blind, the promoters of these horrendous deeds, the criminals have the unmitigated gall to ask Mr. Citizen to bail them out by volunteering his time! Truly we are at the point of no return. We can only say with Shakespeare: "Truly wisdom thou art fled to brutish beasts and men have lost their reason!"

DETROIT, Mich. — Rev. Charles E. Coughlin, who bucked the hierarchy and the kept press 30 years ago to tell the truth, was loudly applauded, when he returned to preach recently at the Shrine of the Little Flower. Among other things he blasted the Vatican Council, our Red China policy and school-busing. Perhaps his most significant statement was his reference to "our leftist government that talks rightist out of the left side of its mouth."

CALIFORNIA — Plans are already far advanced in California for immense compounds to accommodate 30,000 children per compound. Nixon especially interested! Children to remain in compounds Monday thru Friday, parents having visiting privileges on weekends. Wards of the state! What has **Common Sense** been saying these past years about wards of the state? It's consoling and reassuring these days to be living thousands of miles from those bad old Communist countries, where children are totally brainwashed and wards of the state!

DID YOU KNOW . . .

That it takes over 200 policemen just to protect the police stations of Los Angeles from armed attack? . . . That children born out of wedlock in New York City have increased over 400 per cent in the past five years? . . . That all the comfort facilities on one of the beautiful turnpike highways in Oklahoma had to be closed because of vandalism? Conscienceless bums were constantly destroying these expensive facilities which now have been removed . . . That 10,000 dwelling units in Kansas City, Mo. have deteriorated beyond hope, destroyed by black invasions to the point where owners refuse to even try to collect rent, pay taxes, or maintain same? . . . That promoters of hard-core sex entertainment in San Francisco, the smut capital of the U.S., are crying hard times and great decrease in revenue . . . The blame? Competition, police, harassment and, lo and behold, public apathy! . . . That a pair of embattled parents in Dade County, Florida, who won the right to teach their own sons at home — finally wound up by losing their home! Can't beat the "invisible government." . . . That Julie Andrews recently quit Hollywood in disgust to live and work in Europe. She stated: "American films have gone into sex, violence and negative attitudes toward life. I don't make those kind of movies. And I don't think there's a market here for my kind of film at this time." Something to think about!

Council on Foreign Relations

(Continued from Page 3, Column 3)

Subsequently, after the Daily Worker had initiated these attacks on MacArthur, Dean Acheson, a CFR member who was then the secretary of state, publicly announced that the federal government and not Gen. MacArthur, would determine policy in Japan.

Gen. MacArthur was well-respected, but because of his attitude, the CFR hated him and had to get his scalp. This was due to the fact that in 1951 he had become an insurmountable obstacle to public acceptance of the "positive" policy of internationalism. Therefore Mr. Truman, a CFR member, had Gen. Matthew B. Ridgway, a CFR member, replace MacArthur. Proof that the CFR really made the decision to fire MacArthur, is inherent in the situation.

Mr. Truman's Secretary of State, George C. Marshall, and practically all of his advisers and subordinates, were CFR members. Ironically, Gen. MacArthur being replaced by Gen. Ridgway, is proof positive that the CFR was responsible for his dismissal as commander.

Gen. Eisenhower, himself a CFR member, loaded his administration with other CFR members. The policy and philosophy of internationalism gained momentum and prestige under the Republican banner. Since the 1960 election, the administrative branch of the federal government, under John F. Kennedy, a CFR member, was completely controlled by this socialistic organization.

The problem that confronts us today is that both parties are controlled by people who are intent upon creating a one-world socialist system and making the United States of America a part of it. It does not matter which party is in power — the internationalists are in control — and it is going to take some strong, concerted action to break it!

BOOK REVIEW...

Man And Technics

The works of Oswald Spengler are an excellent antidote for the stupid humbug taught in American schools and universities. Liberal Humanism subjects our young to a kind of mental sabotage. The young are not required to attend a bordello, an opium den, a pornographic show, or devil worship rituals. They are required by law to attend the public school, which in many respects is worse than the other evils previously mentioned. The "Social Progress" theories and the "mental conditioning" achieved in the school system create a virulent mass insanity. The best antidote is a realistic literature. In this century, this means a GERMAN literature. Oswald Spengler is the top German writer of the century. His books are an excellent antidote for the mental poisons implanted by the corrupt American educational system.

MAN AND TECHNICS is one of the less-known works of Spengler. Its account of the basic sources and origins of technology provides a vitally necessary ingredient of a real education for our time. America is the land of the hoke-peddler. I constantly meet young engineers, who are supposed to have a good working knowledge of technics, who literally know nothing about the real origins of technology, or the ultimate destiny thereof. Thus they are, in a certain way, incompetent even in their own field. I can walk through a big electronics installation and show you a thousand consequences of this incompetence.

Technology is Nordic. The Jewish money power which dominates the industrial scene today is an entirely separate and alien force. The technological civilization will not continue in being under Jewish rule. In the last hundred years, the whole course of development of the Nordic technological civilization has been perverted and distorted by the corruption of the Jewish money power. Spengler understood the Jews extremely well and discussed them lucidly in THE DECLINE OF THE WEST. He scarcely bothered to mention them in MAN AND TECHNICS. This book gives a far different picture of the origins and destiny of the technological civilization than the shallow madness of the American educator and the American advertising man. To some this view sounds gloomy.

In the end Spengler says, "OPTIMISM IS COWARDICE." Today optimism is worse than cowardice; it is the Anti-Christ. Everywhere today the professional optimists preach of a "Wonderful World Tomorrow," which they say is to be achieved by the application of their fraudulent humbug. These optimistic promises are at great variance with contemporary world reality. Today the Anti-Christ has a great big friendly smile and a bag of happy promises. Tomorrow the grim reality at which these low and base connivers really aim will come. We dirty, bloody, gory old reactionaries are made to look wicked by the glowing, beautiful promises, the false promises, made by the Anti-Christ. Our wicked old world has one terrific advantage over the Anti-Christ world of the Age of Jewish Supremacy; our world is the real world; the Jewish Utopia is a fake non-world. The fake non-world is the one presented to American youngsters in the course of their mis-education, which we have implied earlier is worse than attending a bordello or opium den. A full set of the works of Spengler is the best gift that a thinking adult can give to a youngster who has been brainwashed in the corrupt American educational mill. It is a good antidote for misled adults too. MAN AND TECHNICS is an important corrective book if you wish to free your mind from the errors which abound on every hand.

MAN AND TECHNICS by Oswald Spengler
